INTRODUCTION

Wouldn't you like to have a chance to make your own hours? To work from home and not have to deal with traffic and ridiculously high gas prices? To obtain valuable skills that can be used to own you're very own business? To expand your horizons and work in any industry, any size company and anywhere in the world you want?

In today's business world, knowing how to read financial reports is an invaluable asset. Knowing how to produce those reports will only add to that. Even if you have no financial experience or if your not really that great with numbers, you may become a sought after bookkeeper, accountant and/or financial consultant. We are going to show you how to create a complete set of books and records from actual transactions. You will be able to read and interpret financial statements and reports such as the Balance Sheet, Income Statement and the Trial Balance.

Once you complete the course you will have a world of opportunities available. As our network grows, so will your opportunities to gain success. Our objective is not only to provide you with the skills and resources to become the master of your own destiny, but also to always keep the doors of opportunity open to work together to achieve mutual success. We welcome your interest and look forward to helping you achieve your goals.

OPPORTUNITY!

Whether you are seeking a career in bookkeeping or accounting, or want to own your own home based business-the Pro Bookkeeping system could prove to be your answer. The opportunities are so abundant that you can literally write your own ticket. Once you decide exactly what you would like to do with your newly acquired skills, we will assist you in realizing your goals. This is a short list of some of the options that could be available to you:

- ✓ Operate your own bookkeeping firm
- ✓ Provide accounts payable and accounts receivable services
- ✓ Do data entry from home
- ✓ Start a payroll processing company
- ✓ Work for an accounting firm remotely
- ✓ Become a full charge bookkeeper
- ✓ Provide administrative services
- ✓ Write your own ticket - make your own hours

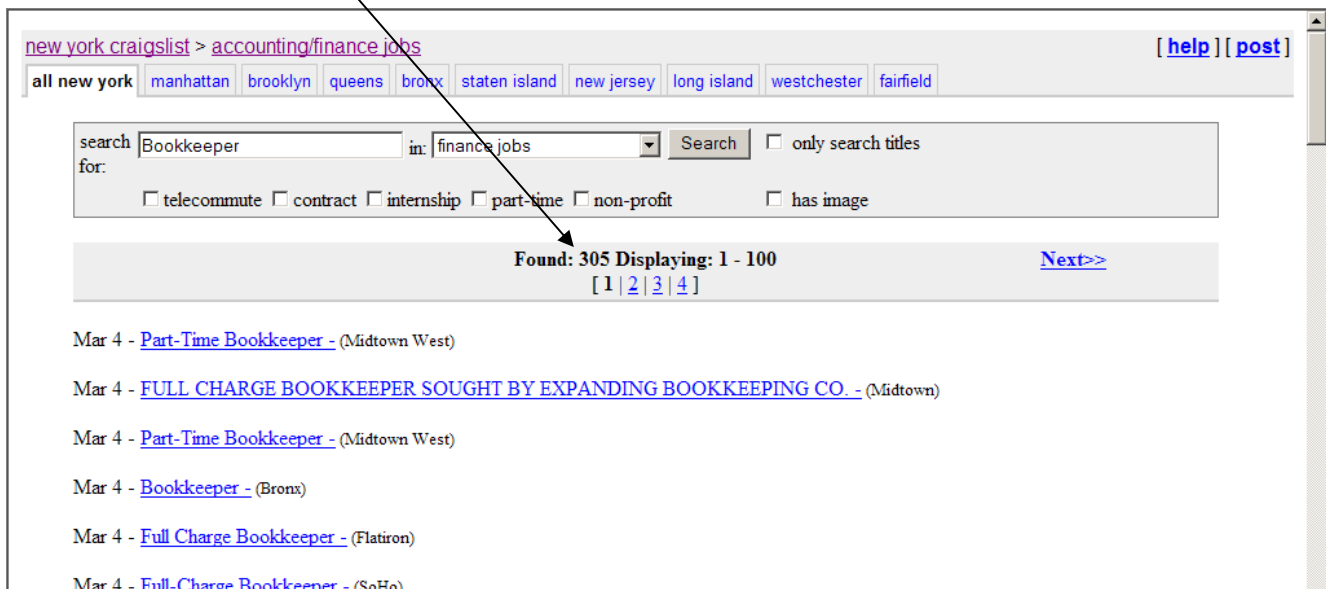

The knowledge and skills you will acquire can prove to be invaluable in your business career. Believe it or not, the accounting scandals with ENRON, WORLD COM, ADELPHIA, ETC... have put a new emphasis and focus on keeping books and records. Sort of like a trickle down theory. This has created a new, tremendous demand for individuals who have special skill sets in the areas we cover. Additionally, the new world economy coupled with real time remote technology has made working from home a reality for more and more people every day. In fact, most companies today have some sort of work from home situation. Many people do at least part (some most) of their work from home. People can easily check email, make appointments, log into the company server, etc.

Here is a good example of how easy it can be: I simply went on www.craigslist.com and hit the accounting-finance jobs tab.

From there I entered bookkeeper in the search box and got over 300 hits. This took me about 30 seconds. Keep in mind that this was only a search of the New York City area. This was just a quick illustration of the demand for these skills.

Here are the results. Over 300!

Once you have mastered our system you will be able to spot and/or create opportunities to work from home. We'll show you how!
